Chamber of Commerce

SPOTLIGHT MEMBER OF THE MONTH

I bought the store two and a half years ago and moved my family up here a few months later. Since buying the store we have made quite a few changes. I wanted to keep the things that made the store successful for so many years and add things to it that would better serve the people of Downs and the area.

I updated the look of the kitchen and redesigned the lay out to make it more customer friendly. I have tried to support the school kids by giving them some place to go after ball games with movies and all you can eat pizza. I brought in Mathews archery which the store had not had any bows for several years. I updated the indoor archery range and made it usable again. The video archery range had not worked for many years so I repurposed the screen and updated the projector, sound and computer to run a video golf simulator. I added lots of ammo, hunting and fishing equipment to give people a better selection with out having to travel out of town.

I really want to encourage people to check the local stores before you travel a hundred miles to shop the big store. Here are just a few items that we sell at Myers that will save you money. Winchester 22LR brick of 500 shells, Cabela's price \$31.99, Myers price \$25.99.

Estate 1 1/8oz 7.5 shot, Rodger's Sporting Goods price \$69.99, Myers price \$64.99. Caldwell Deadshot Feildpod, Wal-Mart price \$109.99, Myers price \$94.99

People tell me all the time what they can buy where for what price. I'm not going to be the cheapest on everything and I'm not going to be able to carry everything but we do get new items in the store all the time. All I'm asking is that you give me a chance. If you haven't been here in a while come check it out, I guarenty there is something here that you haven't seen in this store before. All the employees at Myers and I want to thank everyone for there support since I bought the store and hope you like the changes yet to come.
