SPOTLIGHT MEMBER OF THE MONTH

Shady Grove Cabins is getting ready for the upcoming hunting season.

Kip and Mary Thorson are putting finishing touches on the grounds and cabin interiors that they have owned since November 2017.

Mary has added her homey touches to all of the cabins and all common areas. Our first year in the friendly and welcoming Downs/Solomon River valley area has been everything we could have expected from a small North Central Kansas community.

We have nine completely renovated cabins which sleep from two to eight adults with 26 total beds which have been a part of the Downs community since the 1930's. We are now the last nightly operating roadside cabins from the 1930's in the state of Kansas.
